## About WeMakeVR

WeMakeVR is a small VR production company that does big things on an international scale. Since its start back in 2013 we've won multiple awards for interactive VR-works as well as linear narrative works. Most recently our project "Angels of Amsterdam" has had international success, and our partner-production "The MetaMovie presents: Alien Rescue" won the award for Best Multiplayer Experience at the Raindance festival, and just won "Experience of the Year" at the VR Awards 2022.

During the pandemic we scaled down our team to a small core. Now that the world has opened up again, we have new productions scheduled for 2023 and 2024, and are ready to scale up and look for new talent to join the team.

Currently we have a new Metaverse-show in production, two VR videogames, and we are preparing for various other productions and activities for 2023 and 2024. We have new job-openings for 2023. We also have internship-positions, with potential prolongation into part-time and fulltime positions.

---

## Online and Social Media manager

## internship

**Key project:** develop a better online presence for WeMakeVR

**Future potential:** from mid 2023 to end 2024, we have an ongoing MetaVerse-project which requires ongoing online and social media activities. Depending on the results of the internship, and your specific skillset, you could move onto working parttime on this project, combined with additional hours for general upkeep of WeMakeVR online presence.

**Project description:** communication for Immersive projects is quite different from more traditional media. A key reason for this is that a lot of people do not know what VR, AR, XR and similar terms really mean. Without this context, writing and creating visual content for social media requires a different approach. Your key task is finding the right textual and visual language, creating content based on that, and publishing that on various social media.

### Key skills:

Solid copywriting skills

Photography / film: can take good photos, film and edit short content

Basic web development skills (WordPress / similar)

### Your personal profile:

The team at WeMakeVR is small, but we're upbeat, social, and easy to get along with. And we're looking for those same qualities in you. You like to take initiative and can manage your own time and workload. On a personal level you have an interest in VR and topics such as journalism and Immersive technologies.

### Your level:

From 3<sup>rd</sup> year to graduating

### Interested?

Send your showreel/portfolio/work examples, and your cover letter to [jobs@wemakevr.com](mailto:jobs@wemakevr.com).

**Start of internship:** Feb 2023 (flexible)

**Duration of internship:** 6 months (flexible parttime or fulltime position)

**Deadline for application:** Friday dec. 23<sup>rd</sup>
